Announcing the new BJS Society Publications Hub

We are excited to announce the launch of the BJS Society Publications Hub, which will provide an integrated web presence for BJS Society journals, BJS and BJS Open. The Hub will be the driving force for accelerating research through a unified view of the Society’s portfolio.

The Hub offers:

- A sophisticated search taxonomy across both journals that will provide readers with an effective way to get the right results from across the portfolio.

- Easy access to both journals from a single page on Wiley Online Library, with each title having its own individual homepage unified under the Hub.

- Clear links to Strategic Partners, virtual collections, Scientific Surgery, videos, images, podcasts and all social media channels.

Please explore the new Hub here www.bjs.co.uk and let us know what you think!
